

MSTCA Annual Canned Food Drive

Coaches, as you know most of the food pantries are hurting for canned goods and non-perishables. The demand is at an all-time high. We have doing this canned food drive for over 12 years now. Last year we had a great response. We would like an even bigger response this year. We will divide the food between 5 food pantries. Please take the time to inspire your athletes to give us at least one canned good during this food drive. Have your captains play an active part. The team with the highest number of canned goods will receive a gift certificate for a pizza party with \$100. For a team to be eligible they must bring in at least 50 canned goods.

The cans will be collect at the t-shirt table. Please ask your team to bring the canned goods in plastic bags or boxes to make the collection and distribution much easier.

It's not hard work on your part to ask the kids to respond to this need. Just keep on reminding them. It's amazing that teams come with zero cans and the athletes tell us the coach never informed them.
